

WAVESTREAM PRESS RELEASE

Wavestream Hires Tom Cox Vice President of Business Development and Sales

San Dimas, California, April 6, 2020 – Wavestream, a world leader in the design and manufacture of next-generation, high-power solid-state amplifiers, announced today that Tom Cox has joined the company as its Vice President of Business Development and Sales.

Tom Cox comes to Wavestream with more than 20 years of experience working with and for the US Department of Defense. Most recently Tom was the Vice President of Innovation at Envistacom where he developed cutting-edge technologies for the DoD and commercial satellite communications markets. Earlier on, Tom founded and ran multiple startup companies involving communications software technologies. Tom is also a veteran of the US Army and worked at the National Security Agency during 9/11.

Also joining the Wavestream Business Development Team is Greg Johnson as the Senior Business Development and Sales Director for Government Programs. Greg brings nearly thirty years of experience in satellite communications and systems integration, as well as significant industry experience and connections. Greg will report to Tom Cox.

"I would like to welcome Tom Cox as VP Business Development and Sales at Wavestream. Tom brings extensive experience in satellite communications and DoD networking technologies, as well as a wealth of relationships throughout the industry," said Bob Huffman, General Manager at Wavestream. "I am confident that Tom's view of the industry and intimate knowledge of our customer's needs together with the expanded team will take Wavestream to the next level."

"I am very excited to join Wavestream and contribute directly to its tremendous growth and prosperity, which I have come to know well in my previous roles purchasing and fielding thousands of robust Wavestream products," said Tom Cox, VP Business Development and Sales at Wavestream. "I have always had high appreciation for Wavestream's strengths in quality, manufacturing, airborne certification, delivery and custom design and am thrilled now to be a member of this quality team."

About Wavestream

Wavestream is the industry leader in the design and manufacture of next generation satellite communications high power transceivers for In-Flight Connectivity, Ground Mobility and Gateway markets. Since 2001, we provide system integrators with field-proven, high performance Ka, Ku and X band Solid State Power Amplifiers (SSPAs), Block Upconverters (BUCs), Block Down Converters and Transceivers. We design, manufacture and repair our products in-house and have shipped over 30,000 systems in the past 15 years. Wavestream products provide high quality and reliability under the harshest environmental conditions and we are currently certified to ISO 9001:2008 and AS9100D standards.
